

Brennan For Congress

Our best days as a country have been when our leaders took bold steps and challenged the status quo. It is how we have always overcome our biggest problems. Too often we have responded to the problems of everyday Americans with timidity and political expediency.

Too often we have let the forces of the status quo overcome the calls for action. Michael is running for Congress because he believes we can solve our biggest problems. He is an avid stand for peace, opportunity and community.

I first took on updating this site then I rebuilt tthe entire site to suit the campaign needs. This is a wordpress template that is modified with a xml slideshow, php image rotator for supporter spotlight, dhtml wc3 optimized, and son of suckerfish dropdown menus. I also modified an open source newsletter mangager (phplist)for their mailing list of 20,000 people. The site has had millions of hits and I am proud of the work I did for the campaign. Today is the primary I am confident he will win and that this will be a huge victory for the people of Maine and the United States at large.
